Miss Slade of Flushing, gave all the members present a cordial invitation to attend the annual meeting to be held there on Friday. May 13, in the Friends' Meeting House,

Charles B. Bartram, of Brooklyn, opened the discussion on the negative side. She divided her paper under four heads, the subject of these heads being she said distinctly traceable to the root in the trials incident on domestic service. The with specialists learns from them and takes to her home the condensed results of their years of research and investigation. She filters the water. burns the garbage, sees that the plumbing is per-fect bathes the cuts and burns of her children in water that has been boiled, sterilizes the milk and bandages and ventilates her home after improved

home." said Mrs. Bartram, "and if the modern woman has more duties than her grandmother, she has longer time in which to do the work, because the dead line of age has been lifted from the home by the added cheerfulness."

After speaking on the value of the reticence learned in club life. Mrs. Bartram concluded by saying: "The woman who joins hands with others in service grows, and in that growth builds more stately hibitations than the human architect can plan, for she makes the home not an accumulation of things, not an accretion of matter, but the very

gate of heaven."

Mrs. Margaret Hamilton Welsh read a most admirable paper on "Reserve" and presented both sides of the question clearly and forcibly. She suggested a lesson to be learned by the quaint rhyme of Mrs. J. Wells Champney on the reply given to her by an Irishman when he was asked how he made his shillelah:

Faith, I choose the stick that's raggedest.
The thorniest crookedest jaggedest.
The thorniest crookedest snaggedest—
Be it blackthorn, be it oak.
I cut the blossoms swately.
Leave the knots and thorns so nately,
And for six long nights complately.
It must soak and soak and soak.

It must soak and soak and soak

This is the lesson of patience we must learn.

Mrs. Edwin A. Atwell also of Brooklyn, took the
affirmative side of the question, and said in part.

So many women go to clubs to get away from
home, out of the fret and worry and friction of it,
that their club attendance seems rather a joyful
recess than a task of any kind. But, although
they declare they go home refreshed, how much of
all the uplifting suggestions, the intellectual stimulus the strong, clear thoughts and the extended
information which they say they have acquired at
the club do they take home with them and infitrate through the domestic currents?

No doubt in some cases they are better fitted
for the burdens of the next day, but do they put
their shoulders to the wheel afresh, or do they go
off to another club for more strengthening thought
and influence?

Mrs. Charles H. Denison, president of Scrosis.

woman and the kind of class which claim are actention.

Mrs. John W. Chadwick of Brooklyn, read a paper written by Mrs. Nichols, who deplored the division into compound fractions of the time given by some women to club duties. She said.

Thomas Wentworth Higginson says: It is common to denounce club life in our greater cities as destructive to the home. The modern men's club is simply a refined substitute for the social atmosphere of the old-fashioned tavern an advance on it in morals and manners. I honestly believe that a melancholy described on the home is due to the separation of the sexes in club life. It seems to me that the fatal weakness in clubs, too often in committees, is that we talk a great deal about to me that the fatal weakness in clubs too often in committees, is that we talk a great deal about things and do very little. There are the mothers in theory, who read child culture who attend numerous lectures on the development of the child and all the time the child is getting small profit from the mother's study. Great stress is laid in our present schools for the education of teachers upon the value of a school of practice. The nursery is every mother's school of practice.

ARBOR DAY OBSERVED.

Arbor Day was celebrated yesterday by the children of the public schools by the planting of trees or by appropriate exercises in the schools. nearly all the schools in the upper section of this borough tree-planting was the order of the day. Miss Lockwood, music instructor, and Miss Rosenmeyer had charge of the arrangement of the exercises held at Grammar School No. 39, in East Onehundred-and-twenty-fifth-st. The children of School No. 133 planted trees in honor of Admiral Dewey and Superintendent Jasper. The ground around School No. St. near Bedford Park, was trans-formed into a veritable flower-bed by the planting of more than five hundred tulip buds. At School No. 23. The difference in the number of students and in the expenses of Barrard between the first year of its existence and that just closed was marked with satisfaction. In the initial term there were thirty-six students, of whom eight were trying for degrees. The expenses were less than \$5.000. There are now \$74 students all working for degrees, and the expenditures aggregate \$74.000. The tuilion fees alone are now \$25.000 against \$1,000 for the first year.

The Patria Club, organized April 22, 1891, has now a working membership of 164 men and women. The objects of the club as outlined in the constitution are: (1) To awaken a more positive interest in an honest and patriotic administration of public affairs. (2) To simulate and foster the patriotic idea in our schools: (3) To promote social intercourse amons the members of the club.

Five stated meetings are held during the year—on the second Friday evening of December, January, February, March and April. Candidates for membership must be influential and representative citizens: whose names must be proposed in writing by a member of the club and indorsed by at least one other member. The names of such candidates so proposed and informed must come before the Executive Committee for election.

A class of membership is known as honorary members. This class consists of such persons as may be elected by a two-thirds vote of the resident members of the club present at a general meeting of the club.

"HOUSEHOLD" TROUBLES.

THE NEW-YORK STATE ASSOCIATION NEEDS MONEY.

MEMBERS LEARN THAT A POSITIVE FUND IS NECESSARY IF THEY CONTINUE THE WORK IN THE TENEMENT DISTRICTS.

The second annual meeting of the New-York yesterday at the Industrial Building, in Lexingtonave. This was the last meeting of the year. The programme of the afternoon was devoted to read-

ing the reports and to the election of officers.

The president of the association, Mrs. William
G. Shailer, said: "After two years of work with you all. I want to express my thanks for your help and support. I do feel I have done quite a little in leading the way, but there have been many ups and downs and many perplexities and sleepless future is so wide and broad, and I see so much we can do if we have the means."

She then described the demand for tenement-house classes, and said she thought a vote of thanks was due to Mrs. John E. Milholland, who had put them on their feet so often by her timely

financial support.

Mrs. Christian Hagemann, recording secretary,

read her report, in which she said:

We now own a library. The librarian has sold but few books, and there does not seem to be a great demand for the literature. The reports from the county chairman show how the study of economics is being taken up, not with a rush, but slowly and thoughtfully. The interest is broadening, and next year more work is to be done by the women of these sections.

The School of Domestic Science, established January 6, has, since its opening, really done marveliously well showing need of this institution and the necessity of enlarging the work next year. This room in which our classes are held and lectures given rented for \$49 a month. With the assistance of the Domestic Science Committee and a generous donation from an interested member, the kitchen was fitted with all necessary furniture and fittings. The total cost of fitting up the school was \$156.74. The money received was \$188.28. There were one hundred pupils. The income from the school was \$17.70. The cost of running the school was, in January, \$153.55, in February, \$164.82; in March, \$168.59, and in April, \$125.37—a total of \$647.13. The cost of food materials averaged \$25.5 a month. The income from the demonstration lectures was \$1.75.

The treasurer's report caused consternation by the fact that the society was \$500 in debt. Several the fact that the society was \$500 in debt. Several schemes were advanced by the president and members to make up the sum, but before the close of the meeting there had been enough contributions and offers of such a nature as to convince the president that the sum would undoubtedly be made up before the beginning of the next season. The full amount expended by the association is \$1.405.13. The exact amount of the deficit is \$588.36. Mits. Milholiand said sine would give \$100 if the members would acknowledge themselves responsible for half the remaining sum. There were about twenty-dive present. One member arose and advised Madame President not to depend upon the members as she had sent out ten tickets once for an association affair, and only one member out of the ten bought a ticket. Mrs. Cozzino contributed \$25 and other contributions were declared but their amounts left unsaid.

DEPOSITORS TO GET THEIR MONEY.

An important decision was handed down by Justice Scott, in the Supreme Court yesterday, in ref-erence to the depositors in the defunct Murray Hill Bank, which will result in their getting the amounts which they had deposited in that institution. Timothy Mahoney, a large depositor, brought an action on his own behalf and that of other positors to compel the stockholders of the bank

positors to compel the stockholders of the bank to pay over to them the amount of their liabilities as stockholders.

Henry D. Hotchkiss was counsel for Mahoney, and contended that under the State Banking law, the stockholders were liable for the debts of the bank to an amount equal to the par value of their stock which in this case aggregated over \$100,000.

The stockholders defended the suit, and were represented by Louis Marshall, Abner C. Thomas and Opdyke. Wilcox & Bristow, who maintained that the stockholders were not liable for the amounts due to the depositors to the extent of their stock. Justice Scott decided in favor of Mahoney.

COLONEL HADLEY TO ANSWER QUESTIONS.

An unfriendly and disturbing disposition was shown by the audience at the outdoor meeting of the United States Church Army last Sunday afternoon, at the corner of Eldridge and Grand sts. Several men asked the following questions: "Why deyou come down here to correct a vice in the Red

"If the Police Department and Captain Chapman failed to stop the evils and close the cafes, how does the Church Army expect to do it? Why could not the police close them up?"

The disturbance prevented these questions from pales grayand. The disturbance prevented these questions being answered.

To-morrow afternoon at 2 o'clock Colonel Hadley will reply in friendly tones to these queries from the Church Army pulpit on wheels, at the corner of Eldridge and Grand sts., and will ask a few questions intended for the best people and business men in that locality, who are asked to be present and preserve order, so that if possible a friendly understanding may be reached.

LONG ISLAND TUNNEL BILL HERE. Mayor Van Wyck yesterday received the Long Island Tunnel bill that was supposed to have been lost in Albany. He set a hearing on it for Wednesday next at 11 o clock.

THE PATTEN LINE'S SUMMER SERVICE. The Patten Line of boats will begin the regular season to-morrow morning. There will be steamers daily through the Narrows, down the Bay and up the picturesque Shrewsbury River for Seabright, Pleasure Hay, Long Branch and Asbury Park. For the present there will be only two trips daily, leaving New-York and Long Branch simultaneously at 9 a.m. The regular midsummer schedule will be put into operation about June 1, when there will be four boats running daily each

It is expected that the coming season will be a record-breaker for summer resorts. Last year the season was a cool and short one, which, combined with the anxiety prevailing over the war and the knowledge that torpedoes were buried beneath the waters of the harbor, caused the resorts to suffer greatly. Great preparations have been made at both Long Branch and Asbury Park to handle immense crowds. In anticipation of this the Patten Line has increased its facilities, as well as the facilities of the electric service from Pleasure Bay, by which the passengers are whirled through a beautifully picturesque stretch of country to the famous resorts on the ocean. Many new and substantial improvements have been made at both Long Branch and Asbury Park, while at Pleasure Bay workmen have been employed all winter building booths and pavilions. record-breaker for summer resorts. TEACHER SAVES BOY'S LIFE.

STATEN ISLAND YOUNG WOMAN HOLDS DOWN A HORSE WHICH HAD RUN AWAY AND FALLEN.

Through the bravery of Miss Susie Robinson, one of the teachers in the Stapleton, Staten Island, public school, the life of Thomas Manoney, sixteen years old, was saved last evening. Young Mahoney was riding a horse from Clifton to Stapleton, and as he came to Bay-st. and Vanderlip-ave., Clifton, the animal became unmanageable and started on a run up the street. Directly in front of the horse was a light road team, being driven by two colored men. Mahoney, who clung to the horse's back, houted to the drivers of the team to turn out, but they failed to do so, and the frightened horse crashed into the back of the vehicle. Horse and boy rolled over in the gutter together, and one

Miss Robinson, who lives in Pennsylvania-ave., Clifton, was standing in front of a store when the accident occurred, in company with another school teacher. The latter screamed at the sight, but Miss Robinson quickly ran to the struggling animal and held down its head with one hand, at the

held down its head with one hand, at the same time attempting to release Mahoney, who was under the horse, with the other.

By this time a crowd of men had collected, and they gave aid to the plucky woman. The boy was dragged out in a fainting condition, and Miss Robinson quietly disappeared.

When seen later Miss Robinson was exceedingly modest regarding her exploit, and while she admitted that the boy might have been killed, she did not seem to regard her action in the light of anything omusual. She said that she had always been fond of animais, and was not afraid of anything. She has several times figured in like rescues, and when only a small child held a horse in Fifth-ave, Manhattan, until a policeman came and arrested the rider, who had run her down.

Miss Robinson is the daughter of Mr. and Mrs. George W. Robinson, with whom she lives. She is tall, of athletic figure, and is twenty-two years old. She excels in outdoor sports, such as tennis, golf and rowing, and is an expert swimmer. She teaches one of the third-year classes in School No. 14, at Sinpleton, and is a great favorite with her pupils.

THIRTEEN YUKON STEAMERS IN DANGER,

SEVERAL WILL PROPABLY BE DESTROYED WHEN THE ICE BEGINS TO GO OUT.

San Francisco, May 5.-Advices from the north confirm previous reports that nearly half of the Yukon fleet is fast in the ice and will probably be destroyed when the expected freshets come. Among the vessels in danger is the Herman, of the Alaska Exploration Company. She is near Nulato, and is on a sandbar in the middle of the river, broadside on to the current. Four miles above St. James's Mission is the Dawson City, owned by a San Fran-cisco firm. She is fast in the ice, and with no cisco firm. She is fast in the ice, and with no chance to escape. The Governor Stoneman, owned by Portland capitaliats, is about twenty-five miles above the mouth of the Tanana River, and she will probably break up when the freshels come. The May D, is also doomed. She is near Rampart City, fast in the ice, in the middle of the river. The Trenton is close to the May D, and she cannot escape destruction. The Clutco, owned in San Francisco; the Seattle No. 1, of the Seattle-Yukon Company, and the City of Chicago, owned by Chicago capitalists, are in a bunch a short distance above Rampart City. They will probably be above Rampart city. They will probably be crushed to pieces with the first cake of ice that comes down the river. In Robert Kerr, the Serattle, the Sovereign, the Tacoma, the Arnold and the John C. Barr are near Circle City, and there is little hope that any of them will escape destruction. All of these boats were engaged in general freighting and passenger business between St. Michaels and Dawson City.

Skaguay, April 29, via Seattle, May 5.-Eight Chilkat Indians, who were obstructing the construction of a track by white men along the Chilkat River, have been sentenced to thirty days' im-prisonment. No further trouble with the Indians prisonment. No integer trouble is feared.

James L. Quing, who arrived to-day from Log Cabin, started a Peport that a rich strike had been made eight miles from Log Cabin. A stampede followed.

INDIANS OBSTRUCTED RAILROAD BUILDING

A. B. BRUCE LISTENS FOR DUTY'S CALLA

HE EXPECTS IT WILL TELL HIM TO RUN FOR GOVERNOR OF MASSACHUSETTS.

Lawrence, Mass., May 5.-A. B. Bruce, of this city, who was the Democratic candidate for Governor in 1898 and concerning whose attitude on the statements have been made, said to-day that he would head the ticket again if the party managers desired him to do so. "I shall run if they want me, and they seem to want me," he modestly remarked.

BUILDING IN FORMER UTE RESERVATION. Durango, Col., May 5.-Building on several new town site: in the Ute lands is going forward with all possible speed. The filings at the head office up to noon to-day numbered eighty. There is no way of estimating the number of actual settlers. They are in no hurry to file. New-York men are looking over the ground with a view to building a railroad through the old reservation from Durango to Albuquerque, N. M. Several large irrigating enterprises are also under way.
